Psalm 19:1

Psalms 14:1

The fool has said in his heart,
"There is no God."

Genesis 1:1

"God, in the beginning, created the heaven and the earth.."

Romans 1:20

Does God exist?

The Cosmological argument

The Teleological argument

It is eternal

It was created

The Cosmological Argument

Cause & Effect

The Big Bang?

This assumes matter existed

Where did matter come from?

The search for the incredibly small

Scientists who study particle physics seek to break the atom down to its most fundamental components. For the past several decades they have searched for and found new particles within the atom, including quarks. Now, their attention is focused on finding the Higgs boson, the so-called "God Particle" that is believed to imbue all matter with mass.

"If My people, who are called by My name, will humble themselves and pray and seek My face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land."
